

SCS Fall Meeting 2025

We invite you to attend the SCS Fall Meeting 2025, one of the largest annual research conferences held in Switzerland. For decades, the SCS Fall Meeting has been a great platform for senior scientists to showcase their current research results as well as for young chemists to present their research, often for the first time ever at a major conference.

Program Highlights

- Two plenary sessions with lectures of four SCS prize winners 2025
- Nine thematic parallel sessions with keynote lectures and 15min PhD presentations
- Poster session during the lunch break
- Best oral and best poster presentation award program
- Commercial exhibition

Topics of the Parallel Sessions

- Analytical Sciences [AS]
- Catalysis Science & Engineering [CE]
- Chemistry and the Environment [EV]
- Computational Chemistry [CC]
- Inorganic & Coordination Chemistry [IC]
- Materials Chemistry [Mat]
- Medicinal Chemistry & Chemical Biology [MC]
- Organic Chemistry [OC]
- Physical Chemistry [PC]

The best student short talks and posters in each session will be awarded. The Metrohm Foundation and dsm-firmenich Award Programs are among the most highly remunerated in their category.
